

Supercharge your training...

Our **GDPR For Beginners** training course includes these essential checkpoints and more...

- ✔ Do identify the clear purpose for processing the personal data. Do not use the personal data outside of this boundary.
- ✔ Do check the reason for any 'email bounce'. Update relevant systems and inform other team members.
- ✔ Do read your company's data protection policy, which should set out their approach to protecting personal data.
- ✔ Do make a report if you suspect that there has been a breach.
